RECEIVED
NWP PROGRAM
MARITIMES

Dear Sir,

I am writing to object to a marine terminal
being constructed in the Bay of Fundy at
White Cove in front of Lot # 3016160 to
accommodate ships for the removal of stone
from a Mega Quarry which Global Quarry Products
intend to construct.

It will have a negative effect on ^{the} fishery, namely
herring and lobster, whales and tourism in the area.
I am quite sure that it ~~is~~ is a "disaster
waiting to happen", as docking a ship can be
dangerous even with the assistance of tugboats
but in ^{this} place tugboats are at the best 4 or 5
hours away.

Having lobster fished from that area in my younger
years I know it can change from calm water
to a raging sea in very few minutes.

I beg of you to listen to the fishermen of this
area, as I am quite confident that they know
"what and why" they are concerned about this
Project.

Thanking you
