Re: Suffield Environmental Advisory Committee (SEAC) request for an extension for filing their submission to the Joint Panel on CEAR reference number 05-07-15620

Dear Mr. Mousseau,

In response to your letter of February 12, 2008, the Federation of Alberta Naturalists has no objection to the requested extension to Feb 29, 2008 for filing their submission to the Joint Review Panel.

The SEAC information is critical to this Hearing, as that group has responsibility on the ground at Suffield for energy development and environmental protection.

Sincerely,

Sandra Foss, President,
